## **Graphic Alarm Symbols (Work with D2000 HI)**

## Graphic alarm symbols

A graphic symbol that displays a state of alarm is placed left from the name of the alarm in the **Name** column.

A description of all the graphic symbols that express alarm states are presented in the following table.

Symbol	Alarm state
	Normal state
✓	Acknowledged state
<b>&gt;</b>	Unacknowledged state
	Alarm state
	Blocked state
	Unknown state

An unknown state occurs only when the D2000 Alarm process is not running.
