

IF GOTO

IF GOTO action

Function	Conditional jump.							
Declaration	IF expression GOTO label							
Parameters	<table><tr><td>expression</td><td>in</td><td>Expression of BOOL type.</td></tr><tr><td>label</td><td>in</td><td>Label.</td></tr></table>		expression	in	Expression of BOOL type.	label	in	Label.
expression	in	Expression of BOOL type.						
label	in	Label.						
Description	If expression returns the value True, there is to be performed the jump to the given label. If it returns the value False, the event execution continues with the next action that follows IF GOTO. If the expression gains an invalid value, the action generates the <code>_ERR_EXPRESSION_STATUS</code> error.
