

Title Bar (On-line System Configuration - D2000 CNF)

D2000 CNF - title bar

A title bar of process [D2000 CNF](#) includes information about:

- process name
- application name
- type of licence
- user (full name of logon user)
- current number of tags

If the test application is opened, the background of title bar is in red color.

The button placed in the left corner opens the system menu. The buttons in the right part of the title bar perform the following functions:

-  - minimizes the CNF process window
-  - maximizes or  - restores down the CNF process window
-  - closes CNF process
