

JSON_ArraySetLength

%JSON_ArraySetLength function

Function	Sets the length of an array.				
Declaration	<pre>%JSON_ArraySetLength(INT in handle, INT in length)</pre>				
Parameters	<table><tr><td>handle</td><td>Handle to JSON array.</td></tr><tr><td>length</td><td>New length of array</td></tr></table>	handle	Handle to JSON array.	length	New length of array
handle	Handle to JSON array.				
length	New length of array				
Return value	None				
Description	<p>The function sets the array length to the specified value. If the new length is less than the original, the items at the end of the field will be deleted. If the new length is greater than the original array length, the New Items will be set to null.</p> <p>If it is an invalid handle on a JSON array or the specified length is less than 0, an exception is thrown.</p>				
Example	<pre>INT _arr _arr := %JSON_CreateArray() %JSON_ArraySetLength(_arr, 2) %JSON_ArraySetValue(_arr, 1, 1.234) %JSON_ArraySetValue(_arr, 2, 3.142) %JSON_FreeArrayHandle(_arr)</pre>
