

Copy or Move Objects Between Pages (Work with D2000 HI)

Browser - copy and move objects between pages

Browser allows to copy and move an object or selections of objects between two pages as follows.

1. Select all the objects to be copied or moved.
2. Depending on the operation you want to carry out, do one of the following actions:

- **copy objects:** click  button - **Copy**.
- **move objects:** click  button - **Cut**.

3. Switch the corresponding button of target page (1 up to 5) - where you want to copy / move the objects to.

4. Click  button - **Paste**.
