

Time Interval Selection (Work with D2000 HI)

Time interval for displaying data in graph

The following dialog box allows to define a time interval for displaying data in the graph.

To define a time interval

1. In the graph window, click the button  – **New time interval**.
2. It opens the dialog box allowing to define a time interval.

The dialog box titled "Enter time interval" contains two input fields at the top for dates and times, with a yellow box labeled "3" highlighting the first field. Below these are two calendar controls. The first calendar shows February 2010, with a yellow box labeled "1" highlighting the date 1. The second calendar shows March 2010, with a red box labeled "4" highlighting the date 4 and a yellow box labeled "2" highlighting the date 2. At the bottom are "OK" and "Cancel" buttons.

3. In the calendar (1), select the required month and year of the time interval beginning (click the items showing year and month). The red item (4) shows the current date.
4. In the calendar (2) select the required month and year of the time interval end.
5. In the calendar (1) click a day - the time interval beginning and hold down the mouse button.
6. In the calendar (2) click a day - the time interval end and release the mouse button.
7. Time interval may be also defined in the input fields (3) showing required time parameters (3).
8. To confirm your settings click the **OK** button.

Note:

Time interval within one month can be defined in one of the calendars.
