

Installation (D2000 WorkBook AddIn)

WorkBook AddIn installation

The installation of the file **D2000_WorkBook_AddIn.xla** in to the **MS Excel** environment consists of the insertion of the file into the list of add-ins, which are activated after launching the MS Excel.

To insert the files into the add-ins in:

- **MS Excel 2003 and higher**
 - Click on *Office Button -> Excel Options*, open **Add-Ins** tab in the dialog window. Click on *Go...* and the dialog box **Add-Ins** will open. Then click on *Browse...* and find the file *D2000_WorkBook_AddIn.xla* in subdirectory **bin** in the [installation directory](#).
- **MS Excel 97 and higher**
 - Open the dialog box from the menu *Tools/Add-ins*, then click on *Browse* and find the file *D2000_WorkBook_AddIn.xla* in the subdirectory **bin** in the [installation directory](#).

After the correct installation, the MS Excel main menu is enhanced with the menu **D2000 WorkBook**.
