Graphic Alarm Symbols (HI)

Graphic alarm symbols

Graphic symbol that displays a state of alarm are placed left from the name of the alarm in **Name** column.

Description of all the graphic symbols that express alarm states is presented in the following table.

Symbol	Alarm state
	Normal state
✔	Acknowledged state
▶	Unacknowledged state
▶	Alarm state
	Blocked state
	Unknown state

Unknown state occurs only when the process D2000 Alarm is not running.
