

SetDragDataFileList

%SetDragDataFileList, %GetDragDataFileList functions

Function

Function **%SetDragDataFileList** sets a file list as a source of data for [Drag&Drop](#).

Function `%GetDragDataFileList` fills a column of structured variable with file list which is just being transferred during Drag&Drop. If the function `%IsDragData(0, _CF_FILE_LIST)` does not return `@TRUE`, the return value of this function is undefined.

Declaration

```
%SetDragDataFileList(
    INT in refId,
    TEXT in fileList
)
```

```
%GetDragDataFileList(
    INT in refId,
        out refTocol fileList
)
```

Parameters

refld	It always requires 0.
fileList	Reference to column of structured variable of <i>Record</i> type.
