## **Export the Logged Data**

Logged data export			
The following menu is opened after clicking the button.			
	Text file MS Excel *.CSV file Copy to clipboard To printer	Ctrl+C	
<ul> <li>Image: A start of the start of</li></ul>	All data Description		

The menu contains several options allowing to save displayed data to a text file (**Text file** item), CSV file (**MS Excel \*.CSV** file) or copy them to clipboard ( **Copy to Clipboard** item). It is also possible to save either all data of the table (**All Data** item) or just selected lines.
