

Save the Picture

Saving the picture

It is advisable to save regularly a picture which is being edited. The process [D2000 GrEditor](#) offers several ways to save pictures:

- Click the button  in the [Main toolbar](#).
- Select the item **Save** from the menu **System**. If you want to save a copy of a picture under a different name click the item **Save As...** . It opens the dialog box to enter a new name of the picture or to select the name of an existing picture from the dropdown box. The editing continues in this new picture, the previous picture will close without any change.
- Click the keyboard shortcut CTRL+S.
- To save all opened picture in the process [D2000 GrEditor](#), click the button , or select the item **Save All** from the menu **System**.
