

Ungroup

Ungroup graphic objects

To work with a single graphic object, which is grouped, you must to ungroup the group.

1. Select the group you want to ungroup. You can still select any single object within the group.
2. On the [Edit toolbar](#), click the button **Ungroup selected objects** , or select the item **Group** from the [popup menu](#) opened by pressing the right mouse button in the picture.
3. If required object is still grouped, repeat the step 1.
