

FIO_NewLine

%FIO_NewLine function

Function

The function appends a new line into the specified file.

Declaration

```
BOOL %FIO_NewLine(  
    INT in handle  
)
```

Parameters

handle	Value of a file, returned by the functions %FIO_Create or %FIO_OpenAppend .
---------------	---

Return value

@TRUE - new line appended into the file, @FALSE - cannot append a new line.
