

FIO_RemoveDir

%FIO_RemoveDir function

Function

The function removes the specified directory.

Declaration

```
BOOL %FIO_RemoveDir(  
    TEXT in dirName,  
    BOOL in bRecursive  
)
```

Parameters

dirName	Name of the directory to delete.
bRecursive	If the directory is not empty, then: • @TRUE - delete the directory (including its contents), • @FALSE - do not delete.

Return value

@TRUE - directory deleted, @FALSE - cannot delete the directory.
