

HI_GraphCorrectionLineEnable function

%HI_GraphCorrectionLineEnable function

Function

The function **%HI_GraphCorrectionStart** starts the correction of the flows in graph. This correction allows a user to correct a data curve in a graph using the mouse.

Declaration

```
%HI_GraphCorrectionLineEnable(  
    INT in refId,  
    INT in lineNr,  
    BOOL in enable  
)
```

Parameters

| | |
|--------|---|
| refId | Reference to the graphic object of Graph type (reference variable). |
| lineNr | Number of line whose flow is changed. |
| enable | @True - the flow can be corrected @False - the flow cannot be corrected |

After opening a graph, all flows in graphs are disabled for correction.
