

Changing the server number

!!! WARNING: Process D2000 SysEdit is not supported from Version 7.2 and later !!!

Process [D2000 SysEdit](#) allows changing the number of process [D2000 Server](#) within a [multiserver system](#). To change the number select the item **Change server ID** from the menu **Tools**.

After entering a new number (input field **New**) and clicking the button **OK**, process [D2000 SysEdit](#) executes required changes in the configuration database.
