From 27-04-2005 14:41:34.455

To 27-04-2010 14:42:00.199

☐ BACKGROUND

OK

Cancel

All other selected objects (Historical Values) will be added into this dialog box and no icon will be displayed in the left part of proper row.

## How to start RECALC action:

1. Set the parameters of Tell command (parameters From, To and attribute BACKGROUND).
2. Select the objects in dialog box.
3. Click on the button OK.

The data in columns Time from, Time to and BG of selected rows will be updated according to configured parameters by starting the action.

The following icons are displayed at the beginning of the row that indicates:

- the action RECALC is taking place
- the process has been done successful
- the process failed

## Keyboard shortcuts

CTRL+A	Select everything in the dialog box.
CTRL+R	Fit the column width to contents.
CTRL+Del	Delete the selected rows.

**Warning:** The row cannot be deleted or the tell command RECALC restarted when the process is just being executed. It indicates the icon .
