

LastImpTime

%LastImpTime function

Function

The function returns the time of the rising edge of the last impulse begun. The result is Absolute time type.

Declaration

```
TIME %LastImpTime(  
    BOOL in Impulse  
)
```

Parameters

Impulse	Object, change of which into the TRUE state runs the impulse.
----------------	---

Note

Function result is the time of the last change of the object *Impulse* into the state True. If the object status has never changed into the state True, the function returns the time of 1.1.1972.
