

JSON_ArraySetLength

%JSON_ArraySetLength function

Function Set length of array.

Declaration

```
%JSON_ArraySetLength(  
    INT in handle,  
    INT in length  
)
```

Parameters

handle	Handle to JSON array.
length	New length of array

Return value None

Description

Function set length of array. If new length is greater than previous, items at the end of array will be set to null. If new length is smaller than previous, item at then end of array will be removed.

Exception is thrown if handle to JSON array is invalid or length is lower than 0.

Example

```
INT _arr  
_arr := %JSON_CreateArray()  
  
%JSON_ArraySetLength(_arr, 2)  
%JSON_ArraySetValue(_arr, 1, 1.234)  
%JSON_ArraySetValue(_arr, 2, 3.142)  
  
%JSON_FreeArrayHandle(_arr)
```
