

HI_SetHeaderToolTip

%HI_SetHeaderToolTip function

Function

Function **%HI_SetHeaderToolTip** sets a tooltip in the column header in [Browser](#) displayer. Tooltip consists of two texts - title and text.

Declaration

```
%HI_SetHeaderToolTip(  
    INT in refId,  
    INT in col,  
    TEXT in ttTitle,  
    TEXT in ttText  
)
```

Parameters

refId	Reference to displayer (reference variable).
col	Column of the header (in the range of 1...).
ttTitle	Tooltip title.
ttText	Tooltip text.

Example

```
;setting of the tooltip for column [3]  
  
%HI_SetHeaderToolTip (_browser, 3, "Tooltip header", "This is a tooltip  
of the 3. column header")
```
