Create a new workbook

You must create a new workbook (from a template D2000.xlt) to work with the values from **D2000 System** in Microsoft Excel.

How to create a new workbook

- 1. Click on New in the File menu.
- 2. Click on **D2000** tab and choose D2000.xlt template.
- 3. Click on **OK**.

In this workbook you can use DDE references and functions that enables to work with values from D2000 System.
