

HI_DisableHIHotKeys

%HI_DisableHIHotKeys function

Function	Control function that disables/enables the HI process shortcut.
Declaration	%HI_DisableHIHotKeys(IN BOOL _bDisable)
Parameters	_bDisable disables/enables the HI process shortcut
Description	Keyboard shortcuts defined by the %HI_RegKeyHandler function may conflict with the HI process shortcuts. Therefore, the %HI_DisableHIHotKeys function has been created to disable the HI process keyboard shortcuts.
Example	<pre>; disable HI process keyboard shortcuts %HI_DisableHIHotKeys(@TRUE)</pre>
