

MinR

%MinR function

Function

The function returns a minimal value of the arguments `Arg`, `Arg2`, ... `ArgN`. The number of arguments is not limited. The result is a real value.

Declaration

```
REAL %MinR(  
    REAL in Arg1,  
    REAL in Arg2,  
    ...  
    REAL in ArgN  
)
```

Parameters

ArgX	Function argument.
