

# CNT\_DELETE

## CNT\_DELETE action

---

### Declaration

```
CNT_DELETE _hContainer, _key
```

### Parameters

|             |    |                                                      |
|-------------|----|------------------------------------------------------|
| _hContainer | in | Identifier of <i>Int</i> type - data container.      |
| _key        | in | Identifier of the value in the data container - key. |

### Description

The action deletes a given value from the [data container](#).

If the value specified by the parameter `_key` doesn't exist in the container, the action has no effect.

### Example

[Work with data container \(actions CNT\\_...\)](#).
