

HI_SetCurrLayerIgnoreZoom

%HI_SetCurrLayerIgnoreZoom function

Function

The function sets the layer from the script. The layer will be stated aside from the size of zoom.

Declaration

```
%HI_SetCurrLayerIgnoreZoom(  
    INT in _layerNr  
)
```

Parameters

<code>_layerNr</code>	Layer setting.
-----------------------	----------------

Description

If layer number is from the range of layers of the picture, the appropriate layer will be set. This layer will not change after using a zoom in the picture.

If layer number is 0, the layer will be set according to the current zoom. The picture enables to change layer according to the zoom.

In other situations, no activity will be done.

Note

This function is available also in [%HIX_ version](#).
