

# HI\_PopUpMenu\_Show

## %HI\_PopUpMenu\_Show function

---

**Function**

The function shows defined popup menu ([Control function](#)).

**Declaration**

```
%HI_PopUpMenu_Show()
```

**Parameters**

None.

**Description**

The function **%HI\_PopUpMenu\_Show** shows the popup menu defined by previous callings of the functions [%HI\\_PopUpMenu\\_Create](#) and [%HI\\_PopUpMenu\\_AddItem](#). Script execution goes on. So the function doesn't wait for an user's selection.

**Note**

When you try to show popup menu by using right mouse button in the event [OnMouseDown](#), the popup menu of picture is preferred and this action will fail. You may avoid this by calling the function [%HI\\_PicturePopUpMenuEnable](#) with parameter @FALSE.

**Example**

See: [%HI\\_PopUpMenu\\_AddItem](#).
