Declaration sheet

Creation of Declaration sheet

You can create Declaration sheet in workbook as follows:

1. Choose the item **Create DECLARATION sheet** from **D2000** menu. It opens a dialog window.
2. Enter a logical name of workbook and click on **OK**.

A new sheet is inserted into the active workbook with the name DECLARATION. This sheet contains a table to define the parameters of registering function.

Note

- Logical name of workbook must be unique within all opened workbooks.
