

Print the Report on Printer (HI)

Print the report on a printer

Warning: Since the version D2000 V10.037, the object **Reports** is not supported and the access to it is removed in the D2000 HI environment.

You can print a report opened on HI desktop on an output device - printer.

To print a report

1. Right-click on an opened report.
2. Select the **Print** item from the opened popup menu.
