

# User Toolbar (Work with D2000 HI)

User toolbar, according to configuration, consists of three basic parts:

- [Logging](#) (part 1)
- [User macros](#) (part 2)
- [External tools](#) (part 3)

## Logging

---

This part of user toolbar can contain up to four buttons with the number captions from 1 up to 4. Configuration of the buttons is being defined through the dialog box **Console Preferences** (or **User Preferences**) - the part [Logging](#).

## User Macros

---

The part can contain up to eight buttons with the number captions from 1 up to 8. Clicking any of the buttons will execute the user macro assigned to this button. For more information see the topic [Configuration of user macros](#).

## External Tools

---

The part can contain up to eight buttons with the number captions from 1 up to 8. Clicking any of the buttons will execute the external application assigned to this button. For more information see the topic [Configuration of external tools](#).
