

Export the Structure (Work with D2000 HI)

Structure export

Structured variables and Database tables displayed on the [D2000 HI](#) desktop may be exported (saved) into an output file.

Clicking on **Export** button located in the bottom of window [Browse and modify the structured variable](#) opens the menu allowing to save the values.

Text file...

Save values to a text file.

MS Excel*.CSV file...

Save values to a .csv file.

Copy to clipboard

Copy values into a clipboard.

To printer

Sent values to a printer.

All data

If the option is checked off, all values of structure will be saved. If not, just current page will be saved.

Description

The option is disabled.
