## Time Interval Selection (Work with D2000 HI) <br> Time interval for displaying data in graph

The following dialog box allows to define a time interval for displaying data in the graph.

## To define a time interval

1. In the graph window, click the button $\oplus$ - New time interval.
2. It opens the dialog box allowing to define a time interval.

3. In the calendar (1), select the required month and year of the time interval beginning (click the items showing year and month). The red item (4) shows the current date.
4. In the calendar (2) select the required month and year of the time interval end.
5. In the calendar (1) click a day - the time interval beginning and hold down the mouse button.
6. In the calendar (2) click a day - the time interval end and release the mouse button.
7. Time interval may be also defined in the input fields (3) showing required time parameters (3).
8. To confirm your settings click the OK button.

Note:
Time interval within one month can be defined in one of the calendars.
