

Toolbars (D2000 GrEditor)

GrEditor environment - toolbars

Toolbars contain buttons, which represent frequently used commands of the process [D2000 GrEditor](#). They provide fast access to those commands. The process [D2000 GrEditor](#) allows the user to display the following toolbars:

[ain toolbar](#)

[Drawing toolbar](#)

The toolbars can be placed at the top of the process [D2000 GrEditor](#), eventually at the left or right side

How to move the toolbar: Move the cursor on the toolbar so that the cursor changes to the axial cross and drag the toolbar on some place.

Note: To display/hide some of the toolbars, tick off the particular checkbox in the dialog box [Graphic editor settings](#).
