

FIO_SetWritable

%FIO_SetWritable function

Function

The function sets (resets) the attribute that makes given file writeable.

Declaration

```
BOOL %FIO_SetWritable(  
    TEXT in fileName,  
    BOOL in bWritable  
)
```

Parameters

fileName	The file name.
bWritable	@TRUE - enable writing to file. @FALSE - disable writing to file (<i>Read only</i>).

Return value

The return value of the function is always @TRUE.
