

Get More Out of Help (HI)

Getting more out of help

Here are some tips on how to find more information when using the D2000 HTML Help Viewer. In the text of the displayed topic, it is possible to click on links that will display additional information related to the relevant topic:

- Clicking a blue underlined word shows the linked topic or Web page. For example, [clicking here](#) shows another topic in the HTML viewer window.
- Pointing the mouse cursor to green underlined word shows a tooltip containing particular information. Tooltip can contain text or reference to another topic (Web page). For example, pointing the mouse cursor HERE shows given tooltip.
- If you are viewing a content from the Web in the Topic pane, you can click **Stop** or **Refresh** in the toolbar to interrupt a download or refresh a Web page.
- To see if a word or phrase contained in a topic is in the index, select the word, and then press F1
