Customize the D2000 HTML Help Viewer (D2000 Online Help)

There are a few ways to easily change the size and position of D2000 Help viewer and the panes in the viewer:

- To resize the Navigation or Topic pane, point to the divider between the two panes. When the pointer changes to a double-headed arrow (⟷), press the left mouse button and drag the divider right or left.
- To proportionately shrink or enlarge the whole Help Viewer, point to any corner of the Help Viewer. When the pointer changes to a double-headed arrow (e.g. ⬂), press the left mouse button and drag the corner to the required position.
- To change the height or width of the Help Viewer, point to the top, bottom, left, or right edge of the Help Viewer. When the pointer changes to a double-headed arrow (e.g. ⟷), press the left mouse button and drag the edge to the required position.
- To reposition the Help Viewer on your screen, click the title bar and drag the Viewer to a new position.

Note

- D2000 Help Viewer will appear with the last size and position settings you specified when it is opened again.
