

HI_DisableHIHotKeys

%HI_DisableHIHotKeys function

Function

Control function that disables / enables the HI process shortcut.

Declaration

```
%HI_DisableHIHotKeys(IN BOOL _bDisable)
```

Parameters

_bDisable	disables / enables the HI process shortcut
-----------	--

Description

Keyboard shortcuts defined by the [%HI_RegKeyHandler](#) function may conflict with HI process shortcuts. Therefore, the %HI_DisableHIHotKeys function has been created to disable HI process keyboard shortcuts.

Example

```
; disable HI process keyboard shortcuts
%HI_DisableHIHotKeys(@TRUE)
```
